

ROCKETRY CLUB

About Us

Our club competes in various aerospace related competitions such as the American Rocketry Challenge (TARC) and Battle of the Rockets. In the past 10+ years we've qualified for Nationals nearly every year. In this club, you'll learn how to design, craft, and launch rockets. We also provide members with opportunities to be certified to fly large, powerful rockets.

TARC

- Launch an egg from a rocket you build from scratch
- Fun, frequent launches
- Free donuts during launches 🍩

BOTR

- Mars Rover: Land a rover and compete to complete certain tasks
- Sounding Rocket: launch a rocket to a particular height and collect data
- BOTR is targeted towards those with more rocketry, programming, and electronics experience.

Contact Us!
